INSULATION SPECIALISTS

Insulating Industry...Through Innovation

Unique Combination of a Skilled Workforce, Quality Materials, Extensive Fabrication Capabilities and Manufacturing Expertise Provides Cost Effective Solutions to Insulation Challenges

Since 1921, **PACOR** has been offering solutions to insulation problems that the rest of the industry finds difficult to match. Our commitment to excellence begins with our people: **Experienced, Quality-Driven, Dedicated, and Professional.** This commitment continues through insulation products developed not only to meet today's requirements, but to anticipate the challenges and opportunities of tomorrow as well. These products are fabricated using state-of-the-art equipment, much of it designed and built by our own craftsmen. By combining the expertise of our people, our quality materials and a wide range of fabrication capabilities employed in a *Lean Manufacturing* environment, we can meet your requirements cost effectively and deliver your products to specification and on time.

All PACOR products are manufactured to meet exacting industry and customer specifications and are the result of advanced quality technologies. Our extensive array of insulation materials includes:

- * Asbestos Substitutes
- * Fiberglass Blankets and Boards
- * Ceramic Fibers, Blankets, Boards, and Molded Shapes
- * Felts and Papers (Plain and with PSA)
- * Mineral Wool
- * Foams and Foam Tapes
- * Gasketing and Stripping
- * Styrofoam-Urethane
- * Expanded Polystyrene
- * Marinite, Transite, Haysite, Millboard

Extensive Fabricating Capabilities Offer Opportunity for Adding Value to Your Products

One of the major advantages of having PACOR as your insulation partner is the strength and breadth of our fabrication capabilities, which include:

- * Contour Heat Sealing (Encapsulating)
- * Precision Die Cutting
- * Computer Numerical Control (CNC) Cutting Systems
- * Adhesive and Film Laminating
- * Close Tolerance Slitting-Sheeting
- * Kiss Cutting
- * Custom Foam Treatments
- * Application of Pressure Sensitive Adhesives (PSA)
- * Industrial Sewing
- * Quilting Capabilities
- * Custom Assembly Work
- * Plastic Injection Molding

INSULATION SPECIALISTS

PACOR Service and Support Ensures Successful Solutions to Insulation Problems for a Wide Range of Markets Worldwide

Our Value Proposition

PACOR is an insulation specialist with over 85 years of experience. Providing a full and diversified line of products and services, we are committed to quick responsiveness and dedicated to quality and creative solutions ...and always service oriented.

PACOR has developed a variety of value added services designed to bring efficiencies and quality to your product. These services include:

- * CAD Design and Application Expertise
- * "Just In Time" Delivery
- * Kanban Capability
- * Experience in Government and Military Specifications
- * Redundant Facilities
- * Insulation Energy Appraisal Service

To provide the best possible support to our customers, PACOR has developed one of the most expansive market coverages in the industry. Our experience in serving both domestic and international customers, coupled with multiple producing facilities strategically located in New Jersey, North Carolina, and Georgia, assures you that products are available when and where you need them.

Our expertise includes experience in the following markets:

Commercial

- * HVAC
- * Food Service Equipment
- * Office Partitions

Household

- * Air Conditioners
- * Furnaces
- * Kitchen Appliances
- * Lighting Fixtures
- * Other Appliances

Construction

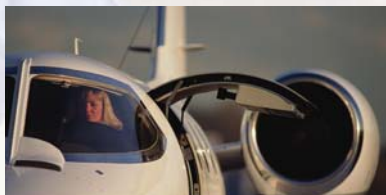

- * Electrical
- * Plumbing

Industrial

- * Marine/Diesel
- * Military/Naval
- * Power Generation
- * Facilities Maintenance
- * Industrial Heating
- * Petrochemical/Refinery

Transportation

- * Aircraft
- * Buses
- * Light Commuter Rail
- * Locomotives
- * Ships

PACOR Offers a Variety of Products to Meet Your Insulation Needs

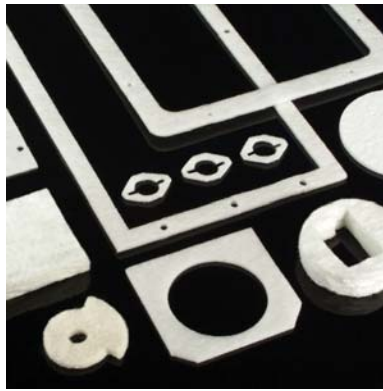

Fiberglass Insulation

As one of just a few national Select Master Fabricators of Johns Manville, we have access to the broadest range of fiberglass products in the industry. Fiberglass has long been used in both residential and industrial applications because of its excellent thermal and acoustical properties. Our product mix includes Tuf-Skin®, Valulite™, Whispertone®, Microlite®, and other fine products.

High Temperature Ceramic Insulation

These products offer state-of-the-art solutions for the most demanding thermal management applications, up to 3000°F. They provide excellent insulating properties, including low thermal conductivity and heat storage.

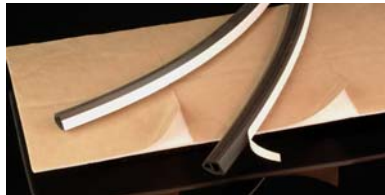

Removable Thermal Insulation Covers

PACOR's industry-leading **RapidWrap™** removable insulation covers conserve energy, preserve process temperatures, and reduce pollution. Made of the highest quality materials by experienced, dedicated craftspeople, they are custom fitted to your exact requirement. With a payback of as short as a couple of months, **RapidWrap™** removable insulation covers offer a cost effective method of reducing your energy costs and consumption.

Foam and Foam Tapes

We offer a large variety of foams and foam tapes to meet a broad range of applications. These products can be ordered with or without Pressure Sensitive Adhesive (PSA) to make your manufacturing process easier, and can be fabricated in a number of ways to meet your requirements.

Plastic Injection Molding

PACOR offers plastic injection molding services, specializing in small runs, prototype services, new product development, and insert molding. We present an excellent opportunity to outsource many of your current items, as well as offer subassembly operations to free up your production staff.
