3P Package Plant/Personnel Protection

Custom Designed to Protect Personnel from Distracting Harmful Noises

PACOR'S **The Noise Police™** Acoustical Blankets offer ideal protection from harmful noises associated with industrial production. Custom designed for your specific application, these products are available in a variety of configurations to meet the specific requirements for your plant and personnel.

PACOR'S Portable Acoustical Blankets are designed to be used wherever the problem is. They can be moved from one area to another to meet temporary and changing situations. Blankets can be arranged in various configurations to provide noise control in a wide range of environments. The standard size is 4' x 8' but each blanket can be custom designed for your specific need. Casters can be added for complete mobility and maximum accessibility.

These acoustical blankets can also be configured to offer personnel protection for larger, more constant noise problems. They add additional sound absorption to the environment and can be installed as a permanent part of the work area. Custom designed for your specific application, PACOR'S acoustical blankets feature heavy duty grommets that provide stability and offer years of satisfaction.

PACOR'S Portable Welding Curtains offer personnel protection from sparks and dangerous welding flashes. They can safely confine hazardous sparks and arcs or an open flame. Designed to go where the welder goes, these curtains can be fabricated in a variety of sizes, shapes, and materials for specific applications. These welding curtains can also be mounted on a frame to create custom designed work areas or be used as drapes or drop cloths. Accessories include grommets, Nomex hook and loop, and roller track hardware for the curtains.
